\*The net quarterly and annual returns, calculated in USD, presented for the Brandes International Equity composite were calculated on a time-weighted and asset-weighted, total return basis, including reinvestment of all dividends, interest and income, realized and unrealized gains or losses and are net of applicable investment advisory fees, brokerage commissions, execution costs, and any applicable foreign withholding taxes, without provision for federal and state income taxes, if any. As of 4/1/06 all custodial fees are treated as administrative fees. Prior to 1/1/02 cash flows were weighted using a mid-month assumption, beginning 1/1/02 cash flows are weighted on a daily basis. Brandes' investment advisory fees are detailed in Part II of its Form ADV. The Brandes International Equity composite results include all actual, fee-paying and non-fee-paying, fully discretionary International Equity accounts under management by Brandes Investment Partners after one full calendar month beginning 7/1/90, that have substantially the same investment objectives, policies, techniques and restrictions. Accounts are removed from the composite when an account's market value falls below \$50,000 due to capital withdrawals. The weighted annualized management fee during the period 7/1/90 through 12/31/07 was 0.73% per year. Securities transactions are accounted for on the trade date. Cash and cash equivalents are included in performance returns. Brandes has been verified for the annual periods 1995 through 2007 by Ernst & Young, LLP. A copy of the verification reports, a complete list and description of Brandes' composites and additional information regarding policies for calculating and reporting returns are available upon request. Although the divisions may share portfolio management and other personnel, each division serves a particular target market, may trade in a different manner and may offer investment advice which differs from the other depending upon the individualized needs of the clients served. The asset-weighted standard deviation measure of dispersion for the annual periods 1991 through 2007 are 5.09%, 3.03%, 4.97%, 2.28%, 2.01%, 2.27%, 2.48%, 4.13%, 3.12%, 2.03%, 1.30%, 1.73%, 2.13%, 1.38%, 0.87%, 1.06%, and 1.03% respectively.
